

Tablet browsing, done better

A better Web browsing experience with Intel Inside®

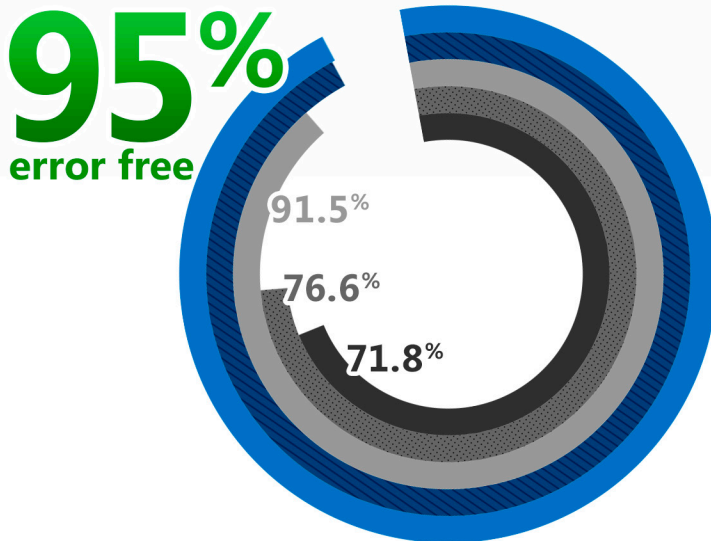

We visited more than 400 popular Web pages¹

How the Intel® Atom™ processor-based tablet handled them:

A fuller Web experience

The Intel-based tablet correctly displayed almost all the Web sites, unlike the other three we tested:

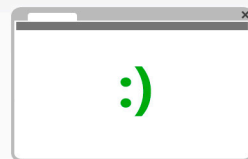

- IE 10® on Intel Atom tablet
- Google Chrome™ on Intel Atom tablet
- IE 10 Modern UI on Windows RT tablet
- Google Chrome on Android tablet
- Safari® on Apple® iPad® 4

- ✓ Adobe® Flash®
- ✓ HTML5
- ✓ Java
- ✓ Microsoft® Silverlight®
- ✓ Parallax Scrolling
- ✓ WebGL

More substance

Access the widest range of Web sites without running into problems

Browse freely

Your browser is the only app you need

Enjoy easy playback

The Intel-based tablet was the most dependable for watching videos online

Choose your browser

Both Internet Explorer 10 and Google Chrome worked great
